

## For the safety and privacy of patients, families, visitors and staff

Information about the use of cameras, cell phones, laptop computers and personal electronic devices while in this facility

**In general, taking photos or video images of the inside or outside of the facility, and/or images or audio recordings that include other patients, staff, volunteers or others is prohibited.**

Photos, video images or audio recordings taken by or for family and friends within Montrose Memorial Hospital or its facilities, are limited to close-up pictures of the patient and the patient's family members or friends, with their expressed permission. This includes images taken by standard or digital cameras, cell phone cameras, and computer webcam.

Please be considerate of those around you when using cameras, cell phones, laptop computers or other personal electronic devices. In some areas, you may be asked to turn off or not use personal electronic devices.

For more information, exceptions and options, please contact your caregiver.
