

ARU APARTMENT ROOM

In addition to providing quality acute rehabilitative care, the ARU located within Montrose Regional Health offers qualified patients the option of staying in our apartment room. This option is perfect for out-of-town patients or family of existing patients who wish to be near their loved ones to offer their support.

Our apartment room features all of the amenities you would normally have at home. We offer a patient bed and a guest bed, a bathroom, a kitchenette, and two armchairs for additional visitors. We also provide our guests with a television and the ability to order room service from the Lobby Grille, our highly reviewed restaurant at Montrose Regional Health.

At Montrose Regional Health, we recognize that our furry friends are members of the family, too. During your healing journey in the ARU, all patients staying in the apartment room are welcome to bring their pets to keep them company. For patients who love animals, Morningstar Therapy Dogs visit every Thursday in the ARU.

For more information on the ARU apartment room and our other services, call **(970) 252-2996**
